PROFESSIONAL SUMMARY

Results-driven Flutter Developer with 6 months of commercial internship experience building production-ready, cross-platform mobile applications. Proficient in Dart, Riverpod, Dio, REST API integration, Firebase (Auth & Firestore), and Clean Architecture / MVVM design patterns. Computer Science Engineering graduate with expertise in engineering responsive UI components following Material 3 guidelines and managing Git code bases.

TECHNICAL SKILLS

Languages & Frameworks:	Flutter, Dart, Material 3, Responsive UI Design, Java (Basic)
Architecture & State Mgmt:	Riverpod, Provider, Clean Architecture, MVVM, Layered Architecture
API & Networking:	REST API, Dio Client, API Integration, JSON Parsing, HTTP Interceptors
Backend & Databases:	Firebase, Cloud Firestore, Firebase Authentication, Hive, SQLite, Local Storage
Mobile Tools & Practices:	Push Notifications (FCM), Git, GitHub, Performance Optimization, Bug Fixing, Agile

WORK EXPERIENCE

Flutter Developer Intern — ACME INFOSOFT PRIVATE LIMITED

Duration: 6 Months | 2026

- Engineered scalable, production-ready cross-platform mobile apps using Flutter & Dart over a 6-month commercial internship.
- Built responsive, pixel-perfect user interface components following Material 3 guidelines for modular widget architecture.
- Implemented Riverpod state management and Clean Architecture (Data, Domain, Presentation layers) for high code maintainability.
- Integrated 20+ backend REST APIs using Dio HTTP client and synchronized dynamic Firebase Authentication and Firestore database.
- Diagnosed and resolved 25+ production bug tickets, optimized widget rebuild trees, and collaborated via Git/GitHub in Agile sprints.

KEY PROJECTS

Enterprise CRM & Workforce Management System

Production-Ready Mobile App

Tech Stack: Flutter, Dart, Riverpod, Dio, REST API, Firebase, Clean Architecture, Material 3, Git, GitHub

- Architected an end-to-end Enterprise CRM & Workforce Management System for internal operations adhering to Clean Architecture.
- Engineered 11 core modules: Secure Auth, Executive Dashboard, Employee, Attendance, Leave, Ticket Desk, Reports & Analytics, Notifications, Search/Filters, Profile, Settings.
- Integrated 25+ REST APIs via Dio Client with custom token refresh interceptors, reducing API request latency by 30%.
- Designed modular Material 3 UI widgets, integrated FCM real-time push notifications, and reduced startup loading times by 25%.

EDUCATION

B.Tech – Computer Science Engineering | Galgotias College of Engineering & Tech, Greater Noida

CGPA: 7.51 (2022 – 2026)

12th Grade – UP Board | Praxis Vidyapeeth Basti, UP

Percentage: 80% (2020 – 2021)

10th Grade – UP Board | RPJ Saraswati Vidya Mandir Siddharth, UP

Percentage: 78% (2018 – 2019)

CERTIFICATIONS & TRAINING

- Flutter & Dart - Complete Mobile App Development (Udemy):** Mastered cross-platform engineering, Riverpod, Dio REST APIs, and Firebase backends.
- Advanced Flutter UI/UX & Animations (Udemy):** Specialized in building pixel-perfect mobile interfaces, custom painter animations, and Material 3 design.
